Health Claims for Auto Insurance (HCAI)

Health Claims for Auto Insurance (HCAI) is part of an ongoing effort to improve the delivery of health care benefits to Ontarians injured in automobile collisions. Building on the Auto Insurance Standard Invoice, introduced in 2001, HCAI seeks to automate the exchange of standardized health claim information between health care providers and insurance companies.

An initiative of Ontario auto insurers, HCAI has been developed in consultation with the Financial Services Commission of Ontario (FSCO), health care provider associations and other stakeholders in the auto insurance system.
