The Financial Services Commission of Ontario (FSCO) is releasing a revised Minor Injury Guideline (MIG) and Treatment and Assessment Plan (OCF-18) that become effective February 1, 2014.

The revised MIG and OCF-18 reflect the recent change made to the Statutory Accident Benefits Schedule – Effective September 1, 2010 (SABS), outlined in Bulletin A-07/13, to provide that a pre-existing condition referred to in s. 38 (3) (c) (i) (regarding the MIG) must have been documented by a health practitioner prior to the accident.

NOTE: The bulletins that are posted on this website are provided for historical reference purposes. The information in these bulletins is accurate on the date the information is published, but is subject to change and may be replaced by more recent bulletins.

An order that is made regarding a licence holder reflects a situation at a particular point in time. The status of a licence holder can change. Readers should check the current status of a person's or entity's licence on the [Licensing Link](#) section of FSCO's website. Readers may also wish to contact the person or entity directly to get additional information or clarification about the events that resulted in the order.

Health Claims for Auto Insurance

Until the revisions to the OCF-18 (change to the introductory Note box on page 1 and to the second question in Part 4) are reflected in the electronic Health Claims for Auto Insurance (HCAI) system (expected to occur in the summer of 2014), the revisions are to be read-in to HCAI's existing electronic version of the OCF-18.

Insurers and health care providers and clinics should visit the [HCAI information website](#) (www.hcaiinfo.ca) to learn more about how the recent SABS amendments change the OCF-18's completion and processes in the HCAI system.
